

Components

SRCCH Crankcase Heater

- Self Regulating, Energy Efficient Polymer Heating Core
- 20 AWG Nickel Plated Copper Buss Wire
- Tinned, Copper Ground Braid
- Polyolefin Outer Jacket
- 8W/ft @ 50°F
- Standard length 4ft
- Includes 30" SJOW Cord and 30" Flying Leads
- End Seal and Zip Tie Included

Description

Chromalox Crankcase heaters provide freeze protection for compressors in commercial applications. The SRCCH Crankcase heater will prevent condensation of refrigerant in the crankcase of a compressor.

The power output is 8W/ft at 50°F and comes in both a 120V and 240V version. These heaters are only to be used on 40" diameter or less compressors located in non-hazardous areas.

Ordering Information

Model No.	Description	PCN
SRCCH-1	120V Crankcase Heater	393457
SRCCH-2	240V Crankcase Heater	393465

WARNING — A ground fault protection device is required by NEC to minimize the danger of fire if the heating cable is damaged or improperly installed. A minimum trip level of 30mA is recommended to minimize nuisance tripping.
