DAIRY FACILITIES

ELECTRIFICATION OF HEATING SYSTEMS

Consistent and reliable steam is critically important to render the milk safe for consumption without altering or destroying its natural goodness. Chromalox electric thermal solutions provide a way for you to improve efficiency of existing systems while helping reduce energy consumption and lower carbon emissions. Chromalox empowers companies to meet their sustainability goals through zero emission electric process heat and steam generation on a scale beyond conventional limits.

- Eliminates on site Scope 1 Emissions
- Eliminates Scope 2 Emissions when coupled with renewable power
- Drastically reduces maintenance costs & downtime
- Virtually 100% efficient conversion of energy to usable heat
- Removes complexity & cost of combustion sources
- Significant savings in life cycle costs

LOW VOLTAGE TECHNOLOGY (12V UP TO 600V)

HEAT TRACE SYSTEMS

STEAM GENERATORS

STORAGE TANK HEATERS

CIRCULATION HEATERS

MEDIUM VOLTAGE TECHNOLOGY (1000V UP TO 7200V)

HEAT TRANSFER SYSTEMS

HOT WATER/STEAM GENERATORS

POWER CONTROL ASSEMBLIES
