

SCJB-5-C

Deicing Sensor Junction Box

- Fiberglass J-Box Provides Excellent Resistance to Chemical and Temperature Exposure
- Easy Termination of Deicing Sensors
- Water and Dust-Tight Seal
- Quick Release Latches on the Corners for Easy Access to Enclosure
- 24VAC Supply Voltage Required
- Connects up to five (5) Chromalox smart sensors
- Fused connection for power & communication wiring
- LED Indicator light for failed sensor
- NEMA 4X Enclosure with Clear Cover
- Designed for use with CIP Panels

Description

The Chromalox SCJB-5-C is a sensor junction box used to group up to 5 deicing sensors: CS-ASM, CS-GSM or CS-PSM. This NEMA 4X fiberglass junction box provides a water and dust-tight seal as well as resistance to chemical contaminants.
